

Corporate Partnership

Sharing surplus,
reducing waste

2025/26

Welcome to Oxford Food Hub

Thank you for your interest in partnering with Oxford Food Hub. Without your invaluable support, we simply wouldn't be able to operate in a bid to share surplus and reduce waste across Oxfordshire and beyond.

We are the centre of surplus redistribution in Oxfordshire, providing both food and non-food items to over 230 charities and community groups. In the last 12 months, we redistributed 400 tonnes of produce to local charities and community groups. With your help, we can keep providing this service for many years to come.

We support sustainability

An area almost the size of Wales is used to produce food that is wasted every year in the UK.**

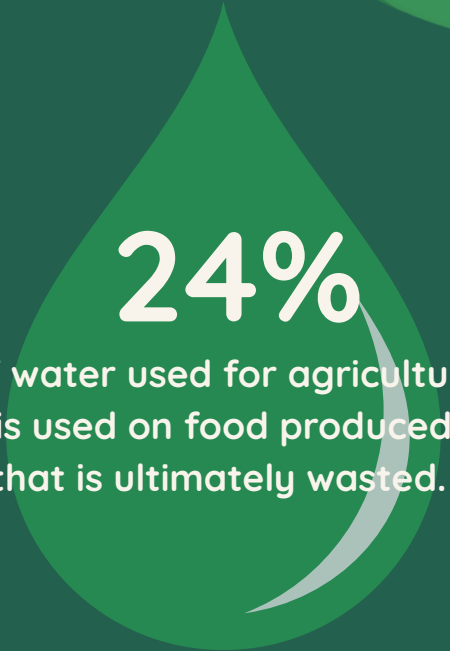

8-10%

Food waste is responsible for approximately 8-10% of global greenhouse gas emissions.*

Both of our warehouses have been transferred to fully green energy.

24%

of water used for agriculture is used on food produced that is ultimately wasted.

Benefits of a corporate partnership

Becoming a corporate partner helps us in more ways than you know. It not only provides us with the ability to support hundreds of organisations in need of the surplus produce we rescue, but it also guarantees the future running model of our charity.

- Partnering with Oxford Food Hub helps reduce food waste and fight food poverty across Oxfordshire and beyond.
- Visible CSR impact + local community engagement = positive brand association.
- A cost-effective way for businesses to demonstrate sustainability and social responsibility in their local area.
- Volunteering provides opportunities for employees to develop leadership and interpersonal skills in a non-work environment, which can then be applied to their roles.

Corporate Volunteering

Spending a day with us is about being part of something bigger. When your team volunteers at Oxford Food Hub, they'll get stuck in alongside our brilliant regular volunteers, helping to rescue and redistribute surplus food to support a whole range of vulnerable communities across Oxfordshire.

It's a hands-on, eye-opening day out of the office - one where you'll learn more about the issues people are facing locally and feel the buzz of doing something meaningful. We're sure your team will go home feeling they've made a real difference. In 2018 we were awarded the Queen's Award for Voluntary Service, something we're immensely proud of - and we'd like to show you why!

Our newly-structured volunteering days can be arranged by contacting admin@oxfordfoodhub.org and can be part of a partner package, or standalone support.

Recurrent donations

Monthly giving is one of the most powerful ways you can support Oxford Food Hub.

Your regular donations provide reliable, predictable income – and that means we can plan ahead, respond faster, and act with confidence. Instead of reacting to emergencies, we can build long-term solutions to food waste and charitable support in Oxfordshire.

With your ongoing support, we're able to:

- Commit to more food collections and deliveries
- Expand our network of community partners
- Support charities more efficiently
- Keep good food out of landfill – every single day

Monthly donors are the backbone of our mission.

Scan the QR code to donate, and be part of a committed group changing lives year-round.

Our impact in the community

"The Friday input of fresh Food from the Oxford Food Hub to us in Kidlington is invaluable as it adds choice and variety to the food parcels we supply. For people to be able to choose from what you supply us with, to use for themselves, is so supportive in the community. It would be a huge loss to us if we did not have your support."

North Oxfordshire Community Foodbank

"Emmaus Oxford provides active support to 28 formerly homeless people. Oxford Food Hub's surplus ingredients contribute towards our evening meals, which we prepare as a community, as well as general donations of fresh fruit and vegetables given out to individuals. We are so grateful to the OFH Team for supporting us with these regular donations, providing such a vital service for charities like us who rely on the generosity of others to thrive."

Emmaus Oxford

Ways you can support us

We kindly request a minimum donation from corporate partners which is invaluable to support the work we do. This starts at £2,000 per year.

Money

Financial donations are the lifeblood of our charity. Without generous donations from businesses like yours, we'd be unable to fulfil our operations and support Oxfordshire community groups and organisations with vital surplus produce. Whether that's £500 or £50,000, we'll discuss a bespoke plan and explain exactly where your donations go.

Time

Your time is extremely valuable to us too. We will arrange a corporate volunteering day(s) for your team for them to better understand the work we do and the need for what we do. Whether that's a visit to our Hub, or taking part in a van shift across Oxfordshire, we hope the time away from the office will allow your team to better understand what Oxford Food Hub does - and be an important part of our mission to reduce food waste!

Other 'Stuff'

A partnership is a two-way street. In recognition of your valued support, we'll commit to; sharing our partnership across all our marketing channels, supply you with 'corporate partner' branded assets, offer you invitations to exhibit/attend at least one Oxford Food Hub event and arrange volunteering days.
